Input from the Continuum is necessary for the Lead Agency to continue the process successfully. Application questions require information on collaborations, work happening in the tri county area (outside of the funded agencies), and detailed data from the entire continuum. ESG recipients and DV agencies are also included in some of the questions.

E-mail: TJacobs@unitedwaygaston.org with the input your agency has to share. Funded and non-funded Agency information is needed.

**Remember the Collaborative score is competitive nationwide
for the amount of funding HUD approves for our community.**
